WARNING

Important safety instructions

Read all instructions before using this air purifier

When using an electrical appliance, basic precautions should always be followed, including the following:

- Make sure the air purifier is plugged into a live 120V AC outlet.
- Always turn off and unplug the air purifier when not in use.
- Disconnect the power supply from your air purifier by unplugging the power cable before replacing filters and before cleaning.
- Do not use attachments or filters not recommended by Airtok.
- Do not use the air purifier outdoors.
- Do not attempt to remove any part of the unit except the filters.
- Do not attempt to repair the air purifier.
- Do not attempt to plug in the machine when your hands are wet.
- Do not soak the purifier in water or splash water on it.
- Do not operate the air purifier near an open flame.
- Do not obstruct the air inlet and air outlet of the air purifier.
- Save these instructions for future reference.
